## SUMMARY OF THE SITUATION IN 2018

In 2018, the Federation of Jewish Communities (FJC) in the Czech Republic recorded a total of 347 antisemitic incidents.

The victims of violent acts often do not report the incident; thus, it is most likely that the actual number of antisemitic attacks was higher. Nevertheless, violent antisemitic attacks do continue to be sporadic; in 2018, two cases of physical aggression with an antisemitic motif were recorded. Also, three cases of devaluation of Jewish property by antisemitic graffiti, symbols etc. were recorded as well as nine incidents falling under the category of dangerous threatening, harassment and insulting a concrete individual because of their real or perceived Jewishness.

In the Czech Republic, however, there has been an evident rise of antisemitic sentiment especially on the internet - a long-term increase in the number of posted antisemitic articles, social media posts, anonymous commentaries and contributions to discussions. Antisemitic manifestations of hate on the internet account for 92,8 % of all recorded incidents.

Antisemitic contributions appear traditionally on the webs of the extreme right, on anti-liberal webs or in the statements of the activists who support the Boycott, Divestment, Sanctions (BDS) move-

ment. Disinformation platforms, which often have a pro-Kremlin bias, have been the source of more than 36 % of all recorded incidents and provided a substantial ideological antisemitic text base.

The dominant content involved in 64 % of the cases comprised false, vulgar or stereotypical claims concerning Jews; a very common phenomenon was the dissemination of conspiracy theories containing the myth of global Jewry and its alleged control of the media, economy, governments and other public institutions. Cases of new antisemitism, applying to Israel standards of conduct not applied to other democratic states or imputing blame to Jews as a whole for the actions of the State of Israel, accounted for almost 29 % of all recorded incidents. The largest number of incidents was recorded by the FJC in May 2018 when manifestations of antisemitism accompanied all the stages of the move of the US embassy from Tel Aviv to Jerusalem and the following unrest in the Gaza Strip.

However, compared to other countries in the Central European region as well as in Western Europe, the Czech Republic remains a safe country for the Jewish community. The large majority of manifestations of antisemitism, as the analysis of recorded incidents has shown, is confined to the internet.

# INTRODUCTION

## 2. 1. THE PURPOSE OF THE ANNUAL REPORT ON MANIFESTATIONS OF ANTISEMITISM IN 2018

The Annual Report on manifestations of antisemitism in the Czech Republic in 2018 (“the Report”) has been drafted by the FJW for the internal needs of the Jewish communities in the Czech Republic (CR) and also of other institutions and organisations that process data on antisemitism. The aim of the Report is to provide, within the scope of the gathered data, a comprehensive picture of the manifestations of antisemitism, of trends and the social climate in relation to manifestations of antisemitism.

## 2. 2. METHOD AND TERMINOLOGY

The core of the Report consists of information on antisemitic incidents recorded by the FJC in 2018. According to the FJC, an antisemitic incident is an act or manifestation as defined further down in subchapter 2.3; antisemitic incidents can take various forms from attacks on property, physical or verbal assault and threats to internet and social media posts. Data were gathered from the actual victims of antisemitic incidents as well as from Czech Jewish organisations and communities, the general public, CR Police and from open sources, such as the mainstream media and the web pages of monitored organisations. As the FJC draws exclusively on open sources, and the availability of relevant data depends, amongst other things, on the willingness, ability and possibilities of victims to report manifestations of antisemitism, the number of incidents published in the Report does not reflect the full number of incidents that took place last year.

The Report contains only general enumerations of antisemitic incidents and texts. The full list of references to published texts and media cases is attached in an annex. Taking into account the safety of the injured parties and their witnesses, the Report does not provide such details of the addressed incidents as would allow the

identification of the persons concerned. Similarly, for personal data protection reasons, the names and profile photographs in social media posts have intentionally been made illegible. All metadata have been removed from pictures.

**All URL sources were made accessible as of April 2019**

Continuing its analysis, the Report divides antisemitic incidents into categories and classifies them according to their type, ideology, content, aim and medium in which the individual incidents took place. As the Report works with certain concepts not defined in statutes and therefore largely ambiguous, it categorizes incidents using, besides the working definition of antisemitism, also the working definition of terms “extremism”, “disinformation” and “propaganda” provided by the Ministry of the Interior of CR (MI CR).<sup>1</sup>

In its assessment of the social and political situation in CR in the last year the Report draws on documents published by state institutions, especially the annual and quarterly reports of the MI CR<sup>2</sup>, the Security Information Service (SIS)<sup>3</sup>, and the National Centre for Combating Organised Crime (NC-COC).<sup>4</sup> The overview of the European and global context draws especially on data provided by the European Union Agency for Fundamental Rights (FRA)<sup>5</sup> and the Coordinating Forum for Combating Antisemitism (CFCA)<sup>6</sup>, with whom the FJC has established long term cooperation.

## 2. 3. WORKING DEFINITION OF ANTISEMITISM

The guiding definition of antisemitism in this report is the one used by the International Holocaust Remembrance Alliance (IHRA).<sup>7</sup> In its declaration on the fight against antisemitism and on the development of a common security approach to better protect Jewish communities and institutions in Europe, which it adopted on 6 December 2018, the Council of the European Union called on all states that had not yet done so to confirm the non-binding IHRA working definition of antisemitism.<sup>8</sup> The Chamber of Deputies of the Parliament of CR adopted a resolution on the definition of antisemitism on 25 January 2019,<sup>9</sup> the Senate of the Parliament of CR did so two days later.<sup>10</sup>

<sup>6</sup> CFCA is an internet forum which gathers information on antisemitic incidents from various sources in the whole world. Forum members include, inter alia: the Israeli Ministry of Education, Sochnut – Jewish agency, The Community Security Trust (CST) from the U.K., the Vidal Sasson Institute attached to the Hebrew University in Jerusalem and the Stephen Roth Institute at Tel Aviv University. <https://www.cfca.org/>

<sup>10</sup> <https://www.senzat.cz/xqw/webdav/pssenat/original/90463/75783>

The aim of the working definition of antisemitism is, amongst other things, to provide a practical guide how to identify incidents and collect data. It also contains concrete illustrative examples of manifestations of antisemitism.

*„Antisemitism is a certain perception of Jews, which may be expressed as hatred toward Jews. Rhetorical and physical manifestations of antisemitism are directed toward Jewish or non-Jewish individuals and/or their property, toward Jewish community institutions and religious facilities.”*

“Manifestations might include the targeting of the state of Israel, conceived as a Jewish collectivity. However, criticism of Israel similar to that levelled against any other country cannot be regarded as antisemitic. Antisemitism frequently charges Jews with conspiring to harm humanity, and it is often used to blame Jews for “why things go wrong.” It is expressed in speech, writing, visual forms and action, and employs sinister stereotypes and negative character traits.”

Contemporary examples of antisemitism in public life, the media, schools, the workplace, and in the religious sphere could, taking into account the overall context, include, but are not limited to:

- Calling for, aiding, or justifying the killing or harming of Jews in the name of a radical ideology or an extremist view of religion.
- Making mendacious, dehumanizing, demonizing, or stereotypical allegations about Jews as such or the power of Jews as collective – such as, especially but not exclusively, the myth about a world Jewish conspiracy or of Jews controlling the media, economy, government or other societal institutions.
- Accusing Jews as a people of being responsible for real or imagined wrongdoing committed by a single Jewish person or group, or even for acts committed by non-Jews.
- Denying the fact, scope, mechanisms (e.g. gas chambers) or intentionality of the genocide of the Jewish people at the hands of National Socialist Germany and its supporters and accomplices during World War II (the Holocaust).
- Accusing the Jews as a people, or Israel as a state, of inventing or exaggerating the Holocaust.

- Accusing Jewish citizens of being more loyal to Israel, or to the alleged priorities of Jews worldwide, than to the interests of their own nations.

Examples of the ways in which antisemitism may be demonstrated towards the State of Israel can be summarised as follows:

- Denying the Jewish people their right to self-determination, e.g., by claiming that the existence of a State of Israel is a racist endeavour.
- Applying double standards by requiring of it a behaviour not expected or demanded of any other democratic nation.
- Using the symbols and images associated with classic antisemitism (e.g., claims of Jews killing Jesus or blood libel) to characterize Israel or Israelis.
- Drawing comparisons of contemporary Israeli policy to that of the Nazis.
- Holding Jews collectively responsible for actions of the state of Israel.

Criticism of Israel similar to that levelled against any other country cannot of course be regarded as antisemitic.

Antisemitic acts are criminal when they are so defined by law (for example, denial of the Holocaust or distribution of antisemitic materials in some countries).

Criminal acts are antisemitic when the targets of attacks, whether they are people or property – such as buildings, schools, places of worship and cemeteries – are selected because they are, or are perceived to be, Jewish or linked to Jews.

Antisemitic discrimination is the denial to Jews of opportunities or services available to others and is illegal in many countries.”

## 2. 4. 3D TEST

The Report also uses the term “new antisemitism”. This term has not been codified in the Czech legal environment but from the point of view of the FJC it is methodologically a useful instrument because it reflects very well the essence of the illegitimate criticism of the State of Israel as defined

by the above-mentioned working definition of antisemitism. The concept of new antisemitism refers to the “3D test” devised by Natan Sharansky.<sup>11</sup> According to the test, to be considered antisemitic an utterance must contain at least one of the 3 Ds.

The first D stands for Demonization, i.e. the portrayal of Israel as evil incarnate and aggressor. An example is the comparison of the policy of the State of Israel to Nazi Germany or of Palestinian refugee camps to concentration camps etc.

Sharansky uses the second D to refer to the Double Standards applied selectively to the State of Israel when judging its foreign policy or home matters.

The third D stands for Delegitimization of the State of Israel and refers to the denial of the right of the State of Israel to self-determination.<sup>12</sup>

<sup>11</sup> <http://www.jcpa.org/phas/phas-sharansky-f04.htm>

<sup>12</sup> The same definitions and application criteria used in this Report are used also by FRA and CFCA in their analyses.

## CATEGORIES OF ANTISEMITIC INCIDENTS

This chapter deals with antisemitic incidents recorded by FJC in 2018. The record includes a total of 347 incidents, which were then divided into clearly defined categories according to specified criteria. The commentary part of this text contains a brief characteristic of each category and illustrative examples of incidents falling under it. For the purpose of analysis, the Report works with five classified categories: according to type,

aim, ideology, content and medium. The individual categories contain and classify all incidents recorded for 2018. Where an incident might fall under more than one category (e.g. it contains both vulgar and stereotypical claims, and Holocaust denial or new antisemitism), only one category is chosen, the one which dominates in the incident.

### 3.1. ACCORDING TO TYPE

ANTISEMITIC INCIDENTS IN 2018  
CLASSIFICATION ACCORDING TO TYPE

Source: Federation of Jewish Communities in CR, April 2019

### 3. 1. 1. Physical attacks on individuals

A physical attack on a person is an assault resulting in bodily harm, or possibly an attack which aims at causing bodily harm, even if the victim of the assault manages to escape or when bodily harm, though intended, does not occur.

#### 3. 1. 1. 1. Incidents in 2018:

In 2018, there were 2 recorded physical assaults on persons. However, it is necessary to bear in mind the fact that victims of violent acts often do not report the incident and it is possible that the actual number of antisemitic attacks was higher.

**April (in Prague)** – physical assault on a hotel employee by a new employer, accompanied by the utterance “Jewish fuckers, return to your mother’s cunt”.

**August (in Prague)** – a foreigner wearing a kippah had an argument with a taxi driver, who physically attacked him. In the stream of the abuse, the victim understood the word “Žid” (Jew).

### 3. 1. 2. Attacks on Jewish property; desecration

Attacks on Jewish property or property linked to Jews is typical of incidents obviously committed with an antisemitic motivation and with the aim of devaluing the property symbolically with antisemitic graffiti, symbols etc. Examples include the vandalization of Jewish cemeteries and monuments, drawing Nazi symbols on Jewish buildings etc.

#### 3. 1. 2. 1. Incidents in 2018:

In 2018, there were 3 recorded incidents of this type:

**May (in Prague)** - unknown perpetrator drew a swastika on the window ledge of the High Synagogue.

**December (in Prague)** - unknown perpetrator damaged a column in front of the Spanish Synagogue by carving a swastika on it.

**December (in Prague)** - the inscription CASA-POUND ITALIA on the wall of the toilets in the Spanish Synagogue. CasaPound is a neo-fascist movement and political association. Many of its members hold antisemitic and xenophobic views.

### 3. 1. 3. Threats, insults, harassment

This category of antisemitic incidents includes any written or verbal threat (in person, by phone, e-mail or ordinary mail) addressed to the Jewish community or to individual members of the Jewish community or to people considered Jewish. Any spoken expression or written text threatening a specific person with an act of violence because of their real or assumed Jewishness is considered a threat. Expressions that do not contain a threat of further violence are listed as harassment or insult.

#### 3. 1. 3. 3. Incidents in 2018:

Nine such incidents were recorded in 2018. In 2018, this category involved e.g.:

**January (in Prague)** - the security guard in a Prague club asked a visitor to remove her chain with the Star of David.

**March (in Zlín)** - in connection with the performance of the play *Furianti*, the theatre in Zlín received an anonymous hateful antisemitic letter. It says, amongst other things:

*“How come a theatre in the CR is managed by that stinking Jewboy pig Michálek??? You Jewish swine shall not pick on Czech folks in Prostějov. Your play about the Yiddish cemetery in Prostějov is Jew terror which we will not put up with here; Jewboys won’t order and command anybody around here; Jewboys are undesirable immigrants whose right and duty it is to disappear immediately – either to some other place or to be gassed!!!!!!”*

*Every anti-Jewish pogrom was a justified and fair act of self-defence by decent people against Jewish terror and murder and plunder by Jewboys!!!*

*Since 17 November 1989 we have come to understand what the Jewboys are and that is why we need a pogrom to cleanse Europe of Jewish pigs!!!!!!*

...<sup>13</sup>

**April (in Liberec)** – a man harassed a female visitor in a bar with antisemitic statements,

such as: *“May Israel disappear from the map of the world. Heil Hitler.”*

**December (in Prague)** - the webmaster of the Jewish Community of Prague received a message with a sinister antisemitic flavour via a contact form; it says, amongst other things:

*“I want you Jewboys to get out of CR!!!! Hitler knew very well what he was doing!!!!!! All those Holocausts were your own fault and it was your fault and that of the gippos that hundreds of thousands of pure Czech citizens died during the Second World War!!!!!! Bug off and go to Israel!!!!!! Already in historical times, when they used to deport you from the country, nobody cared for your activities and usury tricks and nobody except those on the gravy train, whose arses you lick with your bribes, cares now for your multicultural efforts, which only lead to the doom of mankind! With brazen impudence you are infiltrating the governing system of the state and of all the states and nations where you have had the gall to promote your Yiddish interests and requirements that go against the constitution and the rights of Czech citizens and commit serious crimes and offences!!!!!! Get out!!!!!! You are criminals, you are swine, you are a threat, you instigate evil and hate!!!!!! You are like the plague, you are like bedbugs, parasites, absolutely maladjusted, perverse criminals!!!!!!”*

### 3. 1. 4. Texts, depictions, audio-visual manifestations

This category includes public manifestations of antisemitism not addressed to a specific individual, institution or Jewish property. They involve publicly made speeches, antisemitic graffiti, videos, pictures, commentaries and other texts. Due to the possibility of placing such manifestations on closed servers, private and non-public profiles on social networks etc., the resulting number of recorded antisemitic texts is probably misrepresented.

#### 3. 1. 4. 1. Incidents in 2018:

In 2018, a total of 333 incidents falling under this category were recorded and account for

<sup>13</sup> The full text of the letter available at: <http://www.ztis.cz/rubrika/z-domova/clanek/zlinske-divadlo-dostalo-kvuli-hre-o-zidovskem-hrbitove-v-prostejove-anonym-plny-antisemitickych-urazek>

96 % of all registered incidents. Amongst many others, they include:

**January** – a comment under an article published in iDNES.cz<sup>14</sup>

This is not mere envy; orthodox Judaism looks down on Jesus and even calls Mary a slut. This is not just about laziness; Jews have but great disdain for all other religions and will not leave out a single opportunity to denigrate them.

**February (in Prague)** – Prague Boys Anti Jude graffiti on a wall near Radlická metro station<sup>15</sup>

**April** – National Pilgrimage to the grave of Anežka Hřůzová in Polná; speech by Ladislav Malý, chairman of National Unification (Národní sjednocení) about the “murder of Anežka Hřůzová by the Jew Hilsner”<sup>16</sup>:

...  
There is no doubt that Anežka had been murdered by the Jew Hilsner, as the Kutná Hora court verdict was confirmed by the Pilsen Appellate Court. It was proven that Hilsner was the murderer – and I would like to point out that the courts at that time were jury courts; it was not like under the Bolsheviks when the judge would proclaim that he “had reached a conviction” and the accused was then sent to dig uranium for ten years. The courts at that time investigated the crime carefully; the murder case testified to a Jewish ritual murder committed on 19-year old Anežka; the circumstantial evidence was clear...

**May (in Teplice)** – antisemitic graffiti on an information board:

Israel is a racist country and it was founded after the expulsion of Palestinian Arabs by the Jews.

**December** – article posted on the www.aeronet.cz disinformation web; conspiracy theories (see extract)<sup>17</sup>:

Pokud sledujete a posloucháte moje pořady na Svobodném vysílání CS, tak vás současná estráda okolo paktů v OSN nepřekvapí. Praha je centrem světového židovstva a globalizace je hlavním nástrojem jedné ze skupin židů, světových sionistů, pro které je globalizace cestou ke světové vládě pomocí prostředků na vyšších prioritách řízení, na 1. až 5. prioritě. Globalisté (sionisté) se při ustanovování světové vlády brání válečnému dobývání zemí (tzn. řízení na 6. prioritě), protože při těchto procesech se k moci dostávají gojové, především v rolích generálů a vojevůdců, což jsou bílé gojské elity, protože bílá rasa a bílý muž je geneticky naprogramovaný “voják”, je-li řízen generálem, a je také otrok, je-li řízen manažerem. Více o tomto se dočtete rovněž v mé nové knize, avšak. Právě proto židé nenávidí generály. Při vojenských operacích totiž dochází ke ztrátě kontroly řídicích procesů na bitevním poli ze strany Domu Sion, což je hlavní štáb sionistické globalizace světové vlády. Židé s malým “z” (sionisté) sice financují armády, ale nedokážou je řídit jinak, než zase jenom na vyšších prioritách. Jedinou výjimkou je Izrael a židovská armáda IDF, ta ovšem je tvořena židy, nikoliv sionisty.

If you follow and listen to my programmes on Free Radio CS, you will not be surprised by the current vaudeville show in the UN concerning the pacts. Prague is the centre of world Jewry and globalization is the main instrument used by one Jew group, the global Zionists, for whom globalization is the road to world rule through the means at the higher priorities of control, the first to fifth priority. When establishing world rule, the globalists (Zionists) avoid military conquest of countries (i.e. sixth priority control), because during such processes power is assumed by goyim, especially in the roles of generals and commanders, i.e. the white elite,

since the white race and white man is a genetically programmed “soldier” if he is commanded by a general, and he is also a slave if he is controlled by a manager. You can read more about this also in my new book when it is published. That is why Jews hate generals. During military operations a loss of control over governing processes occurs on the battlefield on the part of the House of Zion, which is the Headquarters of the Zionist globalisation of world rule. Although the Jews written with a small “j” (Zionists) finance the army, they do not know how to control it except at the highest priorities. The only exception is Israel and the IDF, but that is composed of Jews, not Zionists.

## 3. 2. ACCORDING TO TARGET

The incidents described in the preceding chapter are divided into targeted and general ones.

### ANTISEMITIC INCIDENTS IN 2018 CLASSIFICATION ACCORDING TO TARGET

Source: Federation of Jewish Communities in CR, April 2019

### 3. 2. 1. Targeted

Targeted incidents are those that aim at a specific individual or institution and attacks against Jewish property or property perceived as connected to Jews, with the aim of symbolically devaluing the property with antisemitic graffiti, symbols etc.

#### 3. 2. 1. 1. Incidents in 2018

In 2018, there were 16 recorded targeted incidents with an antisemitic motive.

### 3. 2. 2. General

This category includes all incidents that have no specific target of damage or assault.

#### 3. 2. 2. 1. Incidents in 2018

In 2018, there were 331 recorded generally targeted incidents, which accounts for 96.4 %.

## 3. 3. ACCORDING TO IDEOLOGY

A symptomatic feature of antisemitism is that it is not linked to a single ideology, but can issue from any part of the political and social spectrum, for example from the wide "non-political" public, from both the extreme political right and extreme political left, from followers of ultra-conservative Catholicism as well as radical Islamists. A major ideological base of antisemitic texts in CR is represented by various, often "pro-Kremlin" disinformation platforms. The source of an antisemitic incident can be recognised only if it can be matched unambiguously to a certain medium or if the author or assailant happen to claim allegiance to a certain ideology or religious extremism, and it is thus evident that they have been motivated or influenced by extremist stances. All remaining incidents with an ideological origin that cannot be determined are included as Undefined (subchapter 3.3.6.).

### ANTISEMITIC INCIDENTS IN 2018 CLASSIFICATION ACCORDING TO IDEOLOGY

Source: Federation of Jewish Communities in CR, April 2019

### 3. 3. 1. Far right extremism

Incidents in this category occurred on the platforms of the extreme far right. The parties, groups and individuals concerned expressed national, racial and ethnic, they also often acted against immigrants or the Roma. Most of them proclaim their patriotism, some incline towards fascism and Nazism. Antisemitic incidents originating with the extreme far right are often based on classical antisemitic stereotypes involving a strong element of conspiratorial thinking and may incline towards Holocaust denial.

#### 3. 3. 1. 1. Incidents in 2018

In 2018, there were 69 reported incidents. This category includes for example the following incidents:

**August** – introductory collages to the cd89.cz web

**October** – conspiracy theory on the National Unification web about the founding of Czechoslovakia as a plan financed by Jews:

*"The former Czechoslovakia was founded because the Jews wished so and for their aims! Unless we, as Czechs, admit that the 28 October 1918 and 17 November 1989 (when Judeo-Masonic democracy was reinstated once bolshevism withdrew tactically from circulation) were a humiliation of the Czech and Slovak nations, we have no right to complain about the present, which has its roots in those two dates! Indeed, what they both have in common is the triumph of the Jews over our nations!"<sup>18</sup>*

**November** – neo-Nazi demonstration in Litvínov; speech by Ladislav Malý on Freemasons and Zionists.<sup>19</sup>

### 3.3.2. Far left extremism

This category includes incidents originating on the extreme left, which in CR is associated especially with communism, the anarchist movement and activist NGOs with links to the BDS movement. The dominant content is new antisemitism in the form of illegitimate criticism of the State of Israel.

#### 3.3.2.1. Incidents in 2018

In 2018, there were 46 reported incidents, including:

**April** – new antisemitism in an article and debate<sup>20</sup>:

#### Otřesné praktiky Izraele

Každým dnem už zase izraelské ozbrojené složky vraždí převážně nevinné palestínské civilisty (tentokrát v Gaze), kteří u tamní zdi apartheidu demonstrují proti brutální okupaci a na podporu svých bratrů v exilu. Někteří z nich tu a tam hodí kámen či zapálenou pneumatiku, čímž podle všeho ohrožují Stát Izrael jako nikdy předtím...

#### Israel's shocking practice

Every day Israeli armed forces are once again murdering mostly innocent Palestinian civilians (this time in Gaza), who demonstrate by the local apartheid wall against brutal occupation and in support of their exiled brothers. Now and then someone throws a rock or burning tyre, by which they are allegedly putting Israel in danger like never before.

**May** – claims made by Jana Ridvanová in an interview on DVTV; new antisemitism<sup>21</sup>:

Izrael a USA zabijí neozbrojené demonstranty, oni jsou největší teroristé, ne Hamás, říká Ridvanová

16. 5. 2018 | Terorismus je, když se útočí na civilisty, z tohoto pohledu jsou největší teroristé izraelci, říká mluvčí Přátel Palestiny Jana Ridvanová

Israel and USA kill unarmed protesters; THEY are the biggest terrorists, not Hamas, says Ridvanová

16.5.2018 Terrorism is when civilians are being attacked; seen from that angle, the biggest terrorists are the Israelis, says the spokeswoman of the Friends of Palestine Jana Ridvanová

**June** – manifestation of new antisemitism on the web of the Union of Young Communists of Czechoslovakia<sup>22</sup>:

*"Neither I, nor the trade union organisation of which I have the honour of being a member, nor the Czech class trade unions will be quiet in the silence that sets in every time Israel commits some terrorist act, crime against humanity, some new act of genocide. We shall not be silent about the ethnic cleansing of the territory of Palestine, development of illegal settlements, expulsions of the indigenous population, bullying, aggression and killing. The case of the most recent victim of the massacre in Gaza, a twenty-one-year-old Palestinian nurse Razan el-Najar, shot dead by Israeli soldiers with two bullets in her back just when she was helping a wounded person, is as criminal and deplorable as Israel itself."*

**July** – comparing Israeli laws to those of the Nazis on www.halonoviny.cz<sup>23</sup>:

*"Last week the Israeli Knesset passed a curious bill. Although the majority that passed it was very slight, it was nevertheless a majority. Since then what applies is that Israel is 'the historic home of the Jewish nation' and it is this nation that has 'the exclusive right to national self-determination'. With this the State of Israel has surprisingly associated itself with the laws of the Nazi Thousand-Year Reich and with the ultranationalists or rather fascists in present-day Ukraine, who have tried, and are still trying to enforce the same in Ukraine. "*

### 3.3.3. Islamism

This category includes incidents issuing from Islamism as a form of religious extremism. Due to the moderate nature of the domestic Muslim community and the absence of radical Islamists, this category is very marginal. Represented here are mostly strongly hostile views of the State of Israel, which meet the working definition of antisemitism.

#### 3.3.3.1. Incidents in 2018

In 2018, there were altogether 3 recorded incidents falling under this category, for example:

**May** – posts on the Facebook profile of a Czech convert to Islam and his comment "Death to Israel" next to a photograph:

Taken over from Ahmed:

Most Czechs will never understand what patriotism is and will easily sell their freedom for a piece of sausage (1938, 1968).

This was not so in the past, but that is no longer true.

They are unable to sacrifice themselves for their people as Palestinians do day after day. They go to protest against Zionist occupation aware that the Zionist fascist can kill them at any time. And they do not even have to throw stones or Molotovs. It's enough to just come closer to the wall in Gaza, which Israeli minister Benet correctly compared to the Iron Curtain, although here it was a case of the charm of the unintended. He only said aloud what every intelligent person already knew.

Yes, the Zionists are behaving in the same way as the Communists used to do in Eastern Europe when they prevented their people from emigrating to the West and shot them down on the borders. There is of course one substantial difference. The Palestinians want to scale the wall to get back home, not to emigrate. That's patriotism!!!!!!

And actually, the Palestinians do not even have to go to the wall, because Zionists shoot live bullets at them in any case.

A Palestinian caricature artist was killed in the 1980s just for drawing the truth about the Palestinian-Israeli conflict.

### 3. 3. 4. Ultraconservative Catholicism

Incidents originating with proponents of ultra-conservative Catholicism must be perceived as private initiatives, often in conflict with the conclusions of the Second Vatican Council, which diverge radically from the official position of the Catholic Church and cannot be in any way associated with antisemitism. From the point of view of their content, the incidents in this category are often full of myths and stereotypical claims based on religiously motivated hate and conspiracy theories.

#### 3. 3. 4. 1. Incidents in 2018

In 2018, there were 7 recorded incidents. This category included for example the following incidents:

**February** – mendacious stereotypical claims on the Czech web of the international Catholic platform Gloria.tv<sup>24</sup>:

*"Like the liberal Jew, the 'ecumenic' Jew, too, is an agent of Judaism and aims to protect it against potential attacks and undermine the Catholic Church in its teaching and ethics."*

*"Catholics, do not trust the Jew; he hates you and is just playing games. The whole dialogue of the Second Vatican Council is a pantomime designed to deflect your attention and destroy the Catholic fighting spirit against Judaism."*

**March** – conspiracy theory and Holocaust denial on the blog of a Catholic integrist<sup>25</sup>:

*"... by gradually gaining control over politics, universities and especially the media, the Jews have increasingly started to control the way people think and they use this dominance granted to them by incautious non-Jews to convince everybody that the Jews were victims rather than the cause of the permanent tension between them and the rest of the world."*

*"The propaganda for the 'Holocaust' did not start until after the Second Vatican Council. Prior to the Council people still had too much common sense to believe that twice as many Jews were annihilated in Europe as existed there before the war."*

### 3. 3. 5. Disinformation platforms

A separate category involves incidents originating in the disinformation media and web pages. These platforms pretend to fulfil the role of alternative news media; the published articles may be based on facts, which gives them false credibility, but they contain a made up or distorted part. "With the help of lies, half-truths, relativization of facts and manipulation they provoke the society to support undemocratic, extremist positions and instil in it a feeling of helplessness within the democratic system (elections, courts).<sup>26</sup>" The platforms contain mainly antisemitic incidents permeated with conspiracy theories and manifestations of antisemitism.

#### 3. 3. 5. 1. Incidents in 2018

There were 126 recorded incidents on disinformation platforms, including:

**January** – conspiracy theory and manifestation of new antisemitism on the pages of the Protiproud magazine – article and photo collage<sup>27</sup>:

*"Israel of course has an eminent interest in Arab thrashing Arab, in both confronting Iran and so on. Only thus will the nuclear power Israel, supported by the US, become the regional hegemon."*

**May** – post on Twitter:

The penetration of Zionist influence into the education of Czech and...

**October** - Defamation of Israel on the Skrytapravda.cz server<sup>28</sup>:

*"So, the younger people and the very young in Palestine have never experienced true freedom, have never known the real world; on the other hand, they are being constantly fired at by the most modern army in the world, the Israeli army paid for by American money. And when a boat, carrying, for instance, Christian activists is sent there, they are chased away by Israel using arms or shot on the spot and then paid compensation from the money of American taxpayers."*

### 3. 3. 6. Unspecified

This category includes incidents whose ideological roots cannot be determined and cannot thus be included into any of the categories above.

#### 3. 3. 6. 1. Incidents in 2018

In 2018, there were 96 recorded unspecified incidents, i.e. 27.7 %.

<sup>28</sup> <http://www.skrytapravda.cz/domaci/1948-koncentracni-tabor-palestina-naskocil-vaclav-klaus-na-podraz-dvoraka-ze-kritika-je-z-obou-stran>

### 3. 4. ACCORDING TO CONTENT

Classification according to content is based on the working definition of antisemitism in subchapter 2.3. Hate for Jews, their institutions and religious communities has more forms and is often a combination of several types of manifestations. Thus, it would often be possible to include individual incidents according to their type into more than one category (e.g. they contain very vulgar and stereotypical claims as well as holocaust denial and new antisemitism). To avoid creating an artificially boosted number of incidents, only one category – the one that dominates in any given cases - is chosen to include the incident.

#### ANTISEMITIC INCIDENTS IN 2018 CLASSIFICATION ACCORDING TO CONTENT

Source: Federation of Jewish Communities in CR, April 2019

- **64,3 %** mendacious, dehumanising, demonising, vulgar and stereotypical claims and conspiracy theories
- **3,7 %** denial of the fact, scope and mechanism of the holocaust
- **28,8 %** new antisemitism and BDS
- **0,6 %** physical aggression
- **2,6 %** threatening, approving, justifying or calling for physical attack

#### 3. 4. 1. Physical aggression

This category includes acts of physical aggression the examples of which are presented in subchapter 3.1.1. Physical attacks against persons.

##### 3. 4. 1. 1. Incidents in 2018

In 2018, there were 2 recorded incidents of physical aggression.

#### 3. 4. 2. Threatening, approving, justifying or calling for physical attack

This category covers threatening or justifying, killing and harming Jews in the name of radical ideologies or extremist positions.

##### 3. 4. 2. 1. Incidents in 2018

In 2018, there were 9 recorded incidents falling under this category, for example:

June – post on Twitter:

It's good that Jewboys are beginning to be liquidated again.

**September (in Prague) – antisemitic attack on a public figure accompanied by threat of violence.** „It bugs me that you are a Jew; it bugs me that you are different, you jerk... // ...This is Czechia... // You're staring at me with those eyes; I'll poke them out...“

#### 3. 4. 3. Mendacious, dehumanizing, demonizing, vulgar and stereotypical claims and conspiracy theories

Incidents when mendacious, dehumanizing, demonizing, vulgar and stereotypical claims are made about Jews as individuals or Jews collectively. They include frequent dissemination of conspiracy theories about the myth of world Jewry, their control of the media, economy, governments and other public institutions and accusation of Jews that give priority to the putative global Jewry over the interests of the states of which they are citizens.

##### 3. 4. 3. 1. Incidents in 2018

In 2018, there were 223 recorded incidents in this category, accounting thus for 64.3 %. Of the many examples we have chosen:

February – Contribution to a discussion on nwoo.cz<sup>29</sup>

Jewish leech wrote:

The Jew is the parasite of nations; he is the demon behind the corruption of mankind.

What to do with parasites? The only solution is to liquidate them.

Only it is forbidden to criticise the one who in fact rules over us!!!!

One can curse the Czechs with impunity, it is most welcome to curse the Russians as much as possible, but one is not allowed to utter a single bad word against the fucking, thievish Jew. It's the same with the Jews as killing rats and other vermin; out of a hundred, one escapes and within a year you have twice as many and that is why when it comes to parasites, we have to be consistent and uncompromising to the greatest possible degree.

April – Facebook post:

We don't want a skin-cutter in the Senate.

**October** - at the University of Finance and Administration a subject titled Secret Societies was taught; the lecture cycle plan was to contain a lecture on the Elders of Zion. According to a statement by the leadership of the university, this was a misunderstanding and the lecture was cancelled<sup>30</sup>

**6. Sionští mudrci.** Protokoly sionských mudrců jsou v hrubých rysech vyjádřením programu židovstva, který současně naznačuje plán a prostředky k ovládnutí a zničení všech nežidovských národů a států bez výjimky. Podává návod, jak si má židovstvo počínat, aby na troskách těchto států vybudovalo svoje oslosvětové panství. Spor o autentičnost Protokolů se stal v současnosti úplně bezpředmětným, protože jejich program se krok za krokem uskutečňuje, a je podle židovského názoru před dovršením.

The Elders of Zion. In a rough outline, The Protocols of the Elders of Zion are an expression of the programme of the Jewry, which simultaneously indicates the plan and means of destroying all non-Jewish peoples and states without exception. It provides a guide to what Jewry must do to build its global domain on the ruins of those states. The dispute over the authenticity of the Protocols is currently pointless, because their programme is being implemented step by step and according to Jewish opinion is approaching completion.

#### ANTISEMITIC INCIDENTS IN 2018 CLASSIFICATION ACCORDING TO MEDIA

Source: Federation of Jewish Communities in CR, April 2019

#### 3. 5. 1. Personal confrontation and interaction

This category includes incidents reported by victims that happened during direct personal confrontation or interaction. They include physical and verbal assaults and threats, vulgar insults and insults with an antisemitic motive.

##### 3. 5. 1. 1. Incidents in 2018

In 2018, there were 5 recorded incidents that occurred during personal confrontation or interaction, accounting for 1.4 %.

#### 3. 5. 2. Public space

Incidents occurring in the public space which did not occur in direct confrontation with individuals from the ranks of members of the Jewish community or with individuals believed to be Jews, but were designed for the public at large. This category thus contains e.g. public speeches during demonstrations, lectures and antisemitic graffiti.

##### 3. 5. 2. 1. Incidents in 2018

In 2018, there were 12 recorded, for example:

**January (in Prague)** – an unknown perpetrator sprayed a wall at Kotlářka with slogans typical of football antisemitism “Sparta = the real Jewish club”.

**September (in Prague)** – First Republic Day in Žižkov; a scene underlining antisemitic stereotypes in the society.

Photo: Facebook of the Prague 3 municipal authority

**November (in Prague)** – antisemitic poster on a lamp post near Pinkas Synagogue

#### 3. 5. 3. Letters and e-mails

Letters and e-mails with an antisemitic content addressed to individuals or institutions.

##### 3. 5. 3. 1. Incidents in 2018

In 2018, there were 6 such e-mails and letters recorded.

#### 3. 5. 4. Printed media

Compared to the internet, the press is not the main source of texts with an antisemitic subtext, nevertheless isolated articles are sometimes published.

##### 3. 5. 4. 1. Incidents in 2018

In 2018, two press articles were recorded:

**May** – Stalin’s Greatest Mistake – an article in the printed version of Lidové noviny of 16 May 2018 – an expression of new antisemitism where the author writes amongst other things:

*“Seventy years later it is necessary to ask whether we should not be actually ashamed for our support of the foundation of the Jewish state. It was with our help that a militant state, which is destabilising the whole region, was born. A state which even after seventy years of its existence has not been able to find a modus vivendi with its nearest neighbours. A state which does not hesitate to shoot some sixty unarmed protesters including children only because they have been trying to get through an arbitrarily erected barbed wire fence.”*

**May** - Euro no. 21/2018; the article Hamas Has Won the PR Battle – an expression of new antisemitism. Amongst other things, it says:

*“One of the forerunners of BDS was the New Zealand singer Lorde, who cancelled a planned concert in Tel Aviv. Although Israeli soldiers did not succeed in shooting a larger number of Arabs, the live fire on Monday did result in a tangible plus.”*

### 3. 5. 5. Internet

The internet environment is currently the main playfield of antisemitic incidents. There has been a long-term rise in the number of published antisemitic articles, social network posts, anonymous comments and discussion contributions on the Czech internet. It is very probable that the real number of antisemitic incidents on the internet in 2018 has been much higher than the recorded number.

#### ANTISEMITIC INCIDENTS IN 2018 CLASSIFICATION ACCORDING TO MEDIA; INTERNET

#### 3. 5. 5. 1. Articles

The articles concerned were published on internet media web pages and the webs of individuals as well as of monitored organisations.

##### 3. 5. 5. 1. 1. Incidents in 2018

In 2018, there were 158 recorded antisemitic articles.

##### 3. 5. 5. 2. Posted comments on articles

Comments on articles, which on their own may or need not be antisemitic, form a separate category. Most news servers in CR monitor their discussion platforms and, if need be, remove any offensive, vulgar and xenophobic contributions immediately; the recorded posted antisemitic comments originate especially on disinformation webs and other monitored web pages.

##### 3. 5. 5. 2. 1. Incidents in 2018

In 2018, there were 101 recorded incidents, for example:

No poučení z toho plyne následující: sice jsou si všichni oficiálně rovni, ale židé jsou si rovnější! Sice existuje svoboda slova, ale židé se kritizovat nesmí... Jen pro pořádek připomínám, že ony zákony, podle kterých byl ABB odsouzen tehdy ve sněmovně navrhl a prosadil nějaký J. Payne z ODS, dnes Svobodní, Hadanka na zaver: Jake myslíte, že je ten Pan Payne narodnosti? To jsme to tedy dopracovali.....:-)

Anonymous

Well, the lesson is that officially everyone's equal, but Jews are more equal than others! There may be freedom of speech, but it is not allowed to criticize Jews... Just for the sake of completeness I would like to add that the laws applied to sentence ABB had been proposed and pushed through in the chamber by one J Payne, originally of ODS, currently Party of Free Citizens (Svobodní). And a riddle at the end: Guess the ethnicity of this Mr. Payne. How did we get here? ...

O tom, že Izrael všemožně podporoval teroristy snažící se svrhnout legitimní vládu, vedenou prezidentem Asadem v Sýrii je všem jasné od začátku konfliktu. A ne jenom to. Vše je známe, že Izrael se přímo podílel na rabování ropy z území Sýrie a to společně s Tureckem. Teroristé pokud potřebovali lékařské ošetření, které vyžadovalo nemocniční léčbu, měli toto zajištěné v Izraeli.

The fact that Israel had tried by all possible means to bring down the legitimate government headed by president Asad in Syria has been very clear to everybody ever since the conflict started. And not only that. Everybody knows that Israel has been taking direct part in the plunder of oil from Syrian territory and that together with Turkey. The terrorists who needed medical care requiring hospital treatment had this taken care of in Israel.

Anonymous 14. September 2018 6:08

They horned in on the Egyptian coup; tout-ed gas that was being sent backwards and forwards and they stick their nose into everything, fraud everywhere with Jews in all the banks. They won the Six-Day War only thanks to that dwarf in Jordan, who personally warned them against the invasion by the Arabs (he flew to Israel in a fighter jet in person and spilled it all out). Otherwise this endless cock-up would no longer be here and everything would be in order [the rest incoherent]

Má pravdu. Jsem levičák a antisemita. Na Židech mi vadí, že jsou Židi. Mají takové divné zvyky, které jsou v rozporu s našimi zvyklostmi, založenými na křesťanských základech. Od Cikánů chceme, aby se přizpůsobili většinové společnosti. Pro Židy to neplatí?

#### 3. 5. 5. 3. Audio and video

Posts published on internet radios and videos with an antisemitic content, published on the internet.

##### 3. 5. 5. 3. 1. Incidents in 2018

In 2018, there were 10 audio visual posts recorded on the internet, for example:

**January** – Czech channel of White Resistance – a video with the recording of a lecture in which Jews are referred to as the most depraved people on earth.<sup>37</sup>

**October** – radio interview with Pavel Petkov including the conspiracy theory about Jewish illuminati.<sup>38</sup>

#### 3. 5. 5. 4. Social networks

This category includes antisemitic posts on social networks. Despite the effort to regulate and suppress hate, social networks still provide disseminators of antisemitic and other hateful manifestations with an adequate feeling of safety and impunity.

##### 3. 5. 5. 4. 1. Incidents in 2018

The Palestinians will also never forget the Jewish crimes. Moreover, Jewish Israel is behaving in the Middle East in the same way as Nazi Germany in Europe. Whenever it feels like it, it attacks another state. Israel is a terrorist state.

In a normal country that person would be accused of high treason and charged as he has evidently defended the interests of another country and a different nation than Slovakia and the Slovaks, but since he is defending the interests of the "Chosen" nation, everything is ok. Israel is the most racist state on earth, one big concentration camp for the indigenous population; it breaches everything than can be breached, but it is fine in their case, because of the Holocaust – and if you don't like it, you are a disgusting anti-Semite... This is yet another attempt to make Jews an even more superior nation, which it is forbidden to criticize in any way and which can terrorize and murder at random. The first level was the criminalization of Holocaust denial, implemented in this country in 2000 at the proposal of parliamentary deputies of Jewish descent (Payne and Benda), and now comes the next round ... The law targeted against all who have doubts about the traditional version of the Holocaust, as presented by the victors of WWII and the entire mainstream is also absurd, it also suppresses freedom of expression and is also aimed against the populations of the countries where it is effective, and yet it was passed; on top of that, most of the goyim applauded...

## MAJOR EVENTS AND TRENDS IN THE AREA OF ANTISEMITISM

The FJC Report brings data on manifestations of antisemitism in CR, thus focusing in the first place on domestic events and social climate. However, anti-semitic incidents sometimes reflect events abroad, react to news in the media and can thus become a part of global calls and action. With view to CR membership of the European Union and NATO, to global threats and the interconnection of the media and the internet, the European and global context, too, cannot be omitted.

### 4. 1. CZECH REPUBLIC

Antisemitic violence and discrimination continue to be rare in the Czech Republic and from this point of view CR still continues to be a safe country, also when compared to other EU states (see chapter 5. Europe and the world. The rise of antisemitic moods is evident here, the same as elsewhere in the world, especially in the internet environment where for some time now there has been a rise in the number of published antisemitic articles, posts on social networks, anonymous comments and discussion contributions.

Domestic manifestations of antisemitism have been formed also by certain events abroad, especially all the stages of the move of the American embassy from Tel Aviv to Jerusalem and the consequent unrest in the Gaza Strip. Thus, an increased number of antisemitic incidents was recorded in the period between the second half of May and mid-June.

#### 4. 1. 1. The right and the far right

The far-right movement in CR remains very much split and is marked by its characteristic inability to unite for organising larger actions and demonstrations. The younger extremists express themselves mainly on the internet, where most of the activities of the extremists have moved.<sup>39</sup>

From a long-term point of view there is the simultaneous persistence of the incompetence of the far right to address and mobilise the general public. Rather than inclining towards extremist entities, the general public indicates support for markedly populist entities that actively speak out against certain groups of people on the basis of their real or perceived racial or ethnic origin, religious faith and political convictions. Although it is tricky for various reasons to label such entities as extremist movements, their

long-term activities may incite individuals or groups to expressions of intolerance or hate towards groups of people who are different.<sup>40</sup>

#### 4. 1. 1. 1. Xenophobic populist political parties

Last year, themes symptomatic of the far right were exploited most effectively by the SPD – Freedom and Direct Democracy (SPD – Svoboda a přímá demokracie) movement.<sup>41</sup>

Controversial statements made by SPD members were the subject of a police investigation in 2018. Jaroslav Staník, former SPD secretary, was charged by the police for his statement that “Jews, homosexuals and gypsies should be sent to a gas chamber”. Other statements that gave rise to much resentment on the part of representatives of ethnic minorities, Holocaust survivors and public personalities were also statements made by several members of the Chamber of Deputies from the SPD movement, including its chairman Tomio Okamura, concerning the concentration camp in Lety near Písek. The Police of CR (PCR) initiated criminal litigation due to suspicion of the commission of the criminal act of denying, questioning, approving and justifying genocide.<sup>42</sup>

#### 4. 1. 1. 2. Traditional far-right entities

Both major traditional far-right parties, i.e. the Workers' Party of Social Justice (Dělnická strana sociální spravedlnosti, DSSS) and the National Democracy (ND), were more passive in their manifestations in 2018 than in the past.<sup>43</sup>

One of the candidates in the 2018 presidential elections was Petr Hannig, who had ND support. The appointed spokesman of his campaign was the convicted ND chairman Adam B. Bartoš, who participated in one of the pre-election debates in this role.<sup>44</sup>

Also, the ND, in collaboration with the National Unification (Národní sjednocení, NS), in April organised the earlier mentioned traditional pilgrimage to the grave of Anežka Hrušková in Polná. The speech presented here by NS chairman Ladislav Malý claimed that: “There is no doubt that Anežka was murdered by the Jew Hilsner.../...The liberals, neo-Marxists, do-gooders and the like have their Holocausts, Terezíns, pigsties in Lety where they organise annual ritual festivals for their victims.”<sup>45</sup> On his web page, L. Malý publishes texts with anti-Semite undertones

<sup>39</sup> The fact that violence has moved from the streets to social networks has been confirmed by Vojtěch Motyka, head of the anti-extremist department of the Regional Police Dept. of the Capital Prague: [https://www.idnes.cz/zpravy/domaci/motyka-policie-extremismus-protiextremisticke-oddeleni-dzihad.A181012\\_104424\\_domaci\\_kuce](https://www.idnes.cz/zpravy/domaci/motyka-policie-extremismus-protiextremisticke-oddeleni-dzihad.A181012_104424_domaci_kuce)

<sup>40</sup> The issue of extremist movements is dealt with also by the National Centre against Organised Crime in its Annual Report. Unlike the quarterly reports of the Ministry of the Interior of CR, the NCOC report does not mention any movement or political party by name; it opts for more general reference to “markedly populist entities”. <https://www.policie.cz/clanek/vyhodnoceni-cinnosti-zprava-o-cinnosti-ncoc.aspx>

<sup>41</sup> Based on the quarterly reports of the MI CR: <https://www.mvcr.cz/clanek/ctvrtletni-zpravy-o-extremismu-odboru-bezpecnostni-politiky-mv.aspx>

<sup>42</sup> In October, all the filed criminal complaints were suspended, including one filed by the surviving kin of the Roma victims of the camp. [https://www.idnes.cz/zpravy/domaci/tomio-okamura-spd-miloslav-rozner-tabor-lety-u-pisku-trestni-stihani-odlozeno.A181016\\_094654\\_domaci\\_hm1](https://www.idnes.cz/zpravy/domaci/tomio-okamura-spd-miloslav-rozner-tabor-lety-u-pisku-trestni-stihani-odlozeno.A181016_094654_domaci_hm1)

<sup>43</sup> It follows from the MI quarterly reports on extremism that the traditional extremist parties have lost their earlier security relevance; they have been currently replaced by hate-spreading entities that confine their commenting of current affairs to the internet.

#### 4.1.6. Manifestations of antisemitism in CR Police statistics

Data concerning antisemitism were provided also in the comprehensive statistical survey of crime in 2018 compiled by the CR Police.<sup>67</sup> To process statistical data the Police uses “tactical-statistical classification” (TSC) containing its own codes for individual offences and their combinations and for the inclusion of criminal acts into groups under specific labels.

Of the total number of 36 recorded offences of Defamation of Nation, Race, Ethnic or other Group of

People (Section 355 of the Penal Code)<sup>68</sup> in 2018, 1 offence had an antisemitic motive or subtext.

Of the total number of 25 recorded offences of Instigation of Hatred towards a Group of People or of Suppression their Rights and Freedoms (Section 356 of the Penal Code) in 2018, 3 offences had an antisemitic motive or subtext.

Of the total number of 78 registered acts according to sections 400, 401, 402, 403, 404, 405 of the Penal Code in 2018, 13 offences had an antisemitic motive or subtext.

In the case of all three categories it must be pointed out that most hate offences remain unreported.

TSK	Total number of registered offences in 2018 according to TSC	Registered offences with an antisemitic motive or subtext in 2018

As far as court cases and filed complaints are concerned, in January 2018 the District Court in Prostějov gave Aleš Rozsival a suspended sentence, ordered him to pay compensation amounting to several thousand crowns and placed him under the supervision of a probation officer for posting racist threats on social media. Rozsival's hateful posts and threats were aimed at the Banga broth-

ers<sup>69</sup> and at Jews in connection with the rehabilitation of the Jewish cemetery in Prostějov.<sup>70</sup>

FJC recorded 3 filed charges concerning manifestations of antisemitism and 3 charges filed in 2018 by individuals and Jewish institutions.

<sup>67</sup> The total number of registered acts according to TSC is available at: <https://www.policie.cz/clanek/statisticke-prehledy-kriminality-za-rok-2018.aspx>. Details on the number of registered acts with an antisemitic motive or subtext was provided on request by the Police Presidium of the Czech Republic.

<sup>69</sup> The accused threatened Radek Banga with death by a “gas shower” or uranium mines. His brother, the journalist and blogger Patrik Banga, also became a target of online threats and intimidation: <http://www.romea.cz/cz/zpravodajstvi/klara-kalibova-spravedlnost-za-nenavist-na-internetu>

# EUROPE AND THE WORLD

The number of recorded antisemitic incidents and violent attacks motivated by antisemitism aimed at Jews has been rising in recent years.<sup>71</sup> It is estimated that in spite of this 80 to 90% of all antisemitic incidents remain unreported.

The most tragic antisemitic event last year was the attack on the synagogue in Pittsburgh. On October 27, Robert Bowers stormed into a synagogue full of people participating in the Sabbath service and, screaming "All Jews must die", shot 11 people and wounded 11 others. Bowers proclaimed his allegiance to far-right neo-Nazi groups, believed in the supremacy of the white race and used social media to post antisemitic threats.<sup>72</sup>

In December 2018, the European Agency for Fundamental Rights (FRA) published the results of an extensive survey from which it followed, amongst other things, that European Jews perceive antisemitism as one of the largest social and political issues of the country in which they were living and 89 % of them stated that the situation had become worse in the last five years. They encounter antisemitism mainly on the internet and in the social media, but increasingly also in the media as such, in politics and the public.<sup>73</sup> One in three Jews has experienced antisemitic harassment at least once in the five years preceding the survey, and the same number avoid visiting Jewish institutions out of fear for their safety. Most think that their governments have not done enough in the fight against antisemitism.

<sup>73</sup> This is the largest survey of the opinion of European Jews that has ever taken place. More than 16 thousand respondents from 12 EU Member States took part. All the results of the survey can be downloaded from: <https://fra.europa.eu/en/publication/2018/2nd-survey-discrimination-hate-crime-against-jews>

Disturbing information has been provided also by a research carried out by the American agency ComRes for CNN. The respondents were more than 7,000 inhabitants from different parts of Europe. One in five thought that Jews had too much influence in the media and politics, one in twenty Europeans never heard about the Holocaust, and a third of the respondents were convinced that Jews misused the memory of the Holocaust for their own aims. <http://edition.cnn.com/interactive/2018/11/europe/antisemitism-poll-2018-intl/>

<sup>80</sup> CFC Annual Report for 2018, p. 33. <https://antisemitism.org/139956>

<sup>81</sup> The BDS movement was founded in South African Durban in 2001 and comprises dozens of NGOs and extremist activists. The activity of the movement is facilitated largely by generous funding from foreign governments, organisations and companies, religious institutions and private donors. See CFC Annual Report for 2018, pp. 15-16. <https://antisemitism.org/139956>

<sup>82</sup> The report identifies 42 major NGOs of almost 300 international organisations that support the delegitimization of Israel and the BDS campaign. A review has shown that these organisations work as a network and have direct links to the terrorist organisation Hamas and the Popular Front for the Liberation of Palestine (PFLP). Terrorist organisations use various forms of opposition to Israel – demonstrations, marches, fundraising, political lobbying and "Peace" flotillas – to complement their armed attacks against the State of Israel. More disturbing information points to a rise in violent incidents with an antisemitic motive. In March 2018, an 85-year old Holocaust survivor was murdered in her flat by being stabbed 11 times.<sup>74</sup> In January, for example, an 8-year old boy was beaten on his way to school for wearing a kippah, in March a 14-year old boy was attacked on his way from the synagogue.<sup>75</sup> According to the Anti-Defamation League (ADL) NGO, the average number of antisemitic attacks against Jews in France was two in a week.<sup>76</sup> The Jewish population in Germany, on the other hand, faces a growing number of antisemitic incidents in schools;<sup>77</sup> another case that received wide media coverage was the Berlin attack in April against youths wearing kippahs, who recorded the offensive language and beating with a belt on a mobile phone.<sup>78</sup> According to police statistics, 24 violent incidents were recorded in Berlin alone in 2018, compared to seven in the preceding year.<sup>79</sup>

The available surveys as well as police statistics show that antisemitic attacks are being committed by perpetrators belonging to the majority society as well as from minorities, who come from all social strata. Typical manifestations of new antisemitism have their origin in radical Islam, in the radical far-left and the movement supporting the boycott of Israel - BDS.<sup>80</sup>

The BDS movement is one of the political manifestations of the new antisemitism phenomenon providing a platform for hiding antisemitism under the guise of "legitimate criticism" of the State of Israel. The declared mission of the movement is to protect the rights of the Palestinians, but it contains a number of "traditional" antisemitic themes and motives and does not recognise the right of the democratic Jewish State of Israel to existence.<sup>81</sup> In the beginning of 2019, the Israeli Ministry of Strategic Affairs published an extensive report titled "Terrorists in Suits" in which it presented details on the close connection between Palestinian terrorist groups and specific NGOs in the BDS movement.<sup>82</sup>

At the highest political level extreme anti-Israeli ideas have been adopted by the head of the UK Labour Party, Jeremy Corbyn. In 2018, antisemitism in the Labour Party gave rise to repeated protests and to grave concern on the part of British Jews.<sup>83</sup>

For a whole number of European countries, the year 2018 was a year of the rise of populist and nationalist parties.<sup>84</sup> In recent years the main enemy of these parties was especially Islam and immigrants. Although anti-immigration moods dominate in right-wing circles, this does not mean that the rhetoric of nationalist and populist parties has been free of antisemitism or that it has not occasionally incited antisemitism. In 2018, there was a surge of antisemitism in Poland in the context of a dispute concerning new legislation introducing a sentence of three-years imprisonment for attributing responsibility for the Holocaust to the Polish nation and state and following a statement made by prime minister Mateusz Morawiecki that there were Jewish as well as Polish perpetrators.<sup>85</sup> In Hungary, on the other hand, the legitimization of antisemitic manifestations and antisemitic way of thinking were boosted by a several-years lasting campaign led by prime minister Viktor Orbán against the financier George Soros, who is of Jewish descent.<sup>86</sup>

Significant all-European success in the fight against antisemitism was scored last year by the Council of the European Union, which, following the finding that Jewish communities in some EU countries felt endangered by terrorist attacks and had been exposed in recent years to a rising number of violent incidents, adopted on 6.12.2018 the Declaration on the fight against antisemitism and the development of a common security approach to better protect Jewish communities and institutions in Europe. The Declaration invites the member states to adopt and implement a holistic strategy to prevent and fight all forms of antisemitism and calls on the member states that have not done so yet to endorse the working definition

<sup>84</sup> E.g. the far-right Alternative für Deutschland (AfD) is the third largest party in Germany and has 13 % of the seats in parliament. The far-right populist and national conservative Freiheitliche Partei Österreichs (FPÖ) is a government party in Austria. The Hungarian nationalist Jobbik party won 19.5 % of the votes in the 2018 parliamentary elections and the far-right populist Lidová strana Naše Slovensko (LSNS) of Marián Kotleba remains strong in Slovakia. This party proclaims its allegiance to the legacy of the Slovak State and the regime of Jozef Tiso, which participated in the "final solution" of the Jewish question during WWII.

of antisemitism. EU member states should also increase their efforts to ensure security for Jewish communities, institutions and citizens.<sup>87</sup>

This report presents summary information on manifestations of antisemitism in the Czech Republic in 2018. As some statistics show, 70 years after the Holocaust antisemitism is omnipresent in Europe and has many forms. Although this report and also police statistics present a relatively low number of recorded incidents in the CR, the phenomenon remains widespread here, too. The same as in the neighbouring countries, the main source of antisemitism and incitement to hate is the internet. The effort to combat antisemitism including prevention should thus be focused primarily on the online environment.

Židia vedú vojnu proti bielym. Ak sa ich jednanie naoznačí za rasizmus, superfašizmus (fašizmus s plnou podporou médií) s cieľom zničenia bielej rasy, bude to mať fatálne následky

Palestinci také nikdy nazapomenou na židovské zločiny. K tomu židovský Izrael se na Blízkém východě chová úplně stejně, jako nacistické Německo v Evropě. Kdykoliv se mu zachce, napadne jiné státy. Izrael je teroristický stát.

Převzato od Ahmeda;

Česko je ostudou EU.  
Blokují zcela objektivní rezoluci odsuzující přestěhování americké ambasády z Tel-Avivu do Jeruzaléma s tím, že je to "přes čáru"  
Co se týče nesmyslného obnovení sankcí ze strany USA vůči Íránu (Trump je beztak jen Netanjahuovým sluhou), tak tam je sice Česko s EU na stejné lodi, avšak pan Stropnický si přesto neodpustí poznámku v tom smyslu, že by se jaderná dohoda měla rozšířit také o íránský raketový program, protože ten vadí Izraeli!  
Takže Česko nejenom, že se podbízí Rusku, ono se i neustále zastává Izraele, a drže se přitom ohání svojí údajnou "objektivitou".  
Já se opravdu divím Bruselu, že Českou republiku (spolu s Polskem a Maďarskem) ještě nevyloučil z EU, protože ta akorát umí natahovat ruce, když jde o eurofondy, ale jinak její politická reprezentace škodí kde se dá (viz.

Důrazně vyzývám izraelské imigranty aby potlačili své homosexuální sklony a začali se chovat jak lidé. Tady nejste v Izraeli kde si můžete vrazdit lidi a zpovzdali se bavit nad tím s lahvi vína usazení v kreslech nebo s nadšením a s jiskrou v oku tleskat vrazdění palestinských dětí a žen. Stejně tady nemůžete sirit lži a rasovou nenavist vůči Semitům Romům nebo třeba vůči UFO. To se týče především Černé Lilith kované židovské obdivovatelky Hitlera a palestinského holokaustu. To si můžete zkoušet v Izraeli ale ne tady.

Chazarsko-sionistická brzda (ti kdo brzdí jednání) v City of London ničí měny v zemích, které neplní jejich požadavky. Brazílie, Argentina, Venezuela, Turecko a Indonésie jsou první, které to zasáhne."

Dále pak zdůraznil souvislost velmocí židovské a zednárské. Ovšem stejně jako je živé tvrzení, že Židé byli základním kamenem lidství, tak ve své negaci ke všem národům nikdy nebudou kamenem posledním ve výstavbě dohody.

Také ve Švýcarsku sílí dnes protizednárské tendence — čas. S.: Z.: VII—9 — píše, že zároveň protidemokratické (Nationale Front) a samozřejmě pry import z Německa. V normální zemi by se ten člověk musel zodpovídat obvinění z vlastizrady, neboť evidentně hájí zájmy zcela jiné země a jiného národa, než jsou Slovensko a Slováci, ale jelikož hájí zájmy "Vyvoleného" národa, tak je vše ok. Izrael je nejrasističtější stát světa, jeden velký koncentrák pro původní obyvatele, porušuje vše, co se dá, ale u nich je to v pořádku, protože Holocaust - a komu se to nelíbí, je odpornej antisemita... Tohle je jen další pokus o to, učinit z židů ještě nadřazenější národ, který je zapovězeno jakkoliv kritizovat a který může terorizovat a zabíjet kohokoliv. První level byla kriminalizace zpochybňování Holocaustu(u nás realizována v roce 2000 na návrh poslanců židovského původu Payneho a Bendy) a tohle je další kolo... Zákon, namířený proti všem pochybovačům o tradiční verzi Holocaustu, jak nám ji předkládají vítězové 2.Světové a veškerý mainstream je také absurdní, také potlačuje svobodu slova a také je namířen proti obyvatelům zemi, v nichž platí a přesto prošel a ještě tomu většina gojímů tleskala...
